SLOVAK UNION OF VISUAL ARTS

Slovak NC Report 2011 - 2015

General Assembly of IAA Europe and IAA/AIAP, Pilsen, Czech Republic, October 17-18, 2015

Summary

A lot of work has been done. Board members specifically devoted a lot of time and energy to activities on the field of social and legal right of artists. A wide range of collaborating volunteers is also involved in the preparation of specific events and activities.

The Slovak Union of Visual Arts and **the Slovak Coalition for Cultural Diversity** that are linked in the person of the President Pavol Kral, have gained a lot of acknowledgement and are now a well-respected organizations both at home and abroad. **The Slovak Union of Visual Arts** – Slovak NC - is the biggest association of professional visual artist in Slovakia. **Slovak Coalition for Cultural Diversity** represents actually more than 200 entities, associations from all fields of art - music, visual art, literature, theatre, TV, film, etc. Number of individual members of these bodies is about 10 000: SCCD is therefore the most representative and respected “spokesman” for artists in Slovakia actually. We have chance to initiate and comment proposal of law for culture. President of SUVA and SCCD is (since 2012) member of Board for culture of Slovak Government, Vice-Chairman of Committee of Ministry of Culture for Strategy of Development of Culture, he and also other representative of SUVA and SCCD are member of other committees and advisory bodies of Ministry of Culture.

Even though the Coalition has had no official financial support at its disposal and all people work for free (except for the membership fee grant from the Ministry of Culture), over a short period of time it has become a partner to major state authorities and has been able to attract media attention.

In spite of the partial successes we have achieved, there are tasks yet to be finished. The major issue is improving the legal and social status of artists in Slovakia. That remains to be the main goal of SUVA and the SCCD, as there exist many persistent legal issues that have not been solved for more than two decades.

On the other hand, **cooperation with Ministry of Culture already provides some results; about 6 proposals of law are in the process actually. If the government fulfil the objectives of the approved strategy it is really important for the development and better future of culture in Slovakia.**

Slovak NC report since the last GA IAA/AIAP in Guadalajara, Mexico, April 2011

2011 – 2012 Review of activities and future goals

- The initiative for changing the proposal of the tax and social system reform (May 2011 – October 2011) was one of the most important SUVA and SCCD activities. It was a part of our long-term effort to improve the legal and social status of artists in Slovakia. We had got enormous support from Slovakia's artists and eventually achieved partial results. Our international partners also supported us in our activities. An extensive report of more than 50 pages concerning the initiative is available at webpage of IFCCD, Canada: <http://www.ficdc.org/cdc2081>.

The first press conference

Protest meeting of artists at Gallery of Slovak Union of Visual Arts

Journalists interested in actual information about the protest of artists

Main TV News: meeting of representative of artists and a small business with Prime Minister

*Headline on screen: Artists and entrepreneurs with loops (symbol of protest), evening TV news
The report about the protest of artists in Parliament*

- Day of Art 2011, September 13th: Performers from various artistic fields (musicians, actors, visual artists, writers, translators) joined their forces in a program that was running concurrently on 5 stages in the historical center of Bratislava for 6 hours. The event was organized under the auspices of Bratislava's Mayor within the campaign that was supporting demands of the SCCD regarding the discussed tax reform.

Results of our initiative for changing the proposal of the tax and social system reform

It is obvious that our active participation in an effort to change several forthcoming measures, has made sense. Our efforts begin to bear fruits:

There has been a noticeable change of attitude of responsible officials

- from statements that it is too late to negotiate because everything was already decided, to negotiation and meetings of leaders of artists with almost all competent members of government (with Minister of culture, with Minister of finance, a few times with Minister of Social affairs, 2 times with Prime Minister), with representatives of all government parties and Members of Parliament

- after the initial very negative reactions from the official sites, the understanding of some fundamental requirements of artists have been already publicly presented

There has been a noticeable change of attitude by the media

- from ignorance or very rare information to penetrating into the headlines and even to the first reports in almost all the main broadcast media (personal maximum of Pavol Kral was interviewed for about 12 media in one day)

- from indifference and misunderstanding, to more positive attitude towards the demands of artists

Perhaps there has been also (at least) a small change in perception of the Culture with a wider audience

- in addition to solving particular problems, we have the ambition to open wider discussion about the meaning of culture and arts and their place in society

- might this was the first step to the dialogue

And at last but not at least: There has been a noticeable change of attitude by the artists themselves

- from disgust and indifference to the interest to participate and help

- great part of artists have not been joined over the years in Slovakia as now, from the youngest to the oldest artists from all fields of art have been involved

- we have got lot of positive answers and comments, wishes of good luck in our effort; at least one example of spontaneous reaction of art director (F.Palonder) at Facebook after publishing our Response to statement of the Ministry of Labour, Social Affairs and Family of the Slovak Republic:

“I´ve stopped breathing... No one have ever fought for me like this! Even I myself did not!”

- GA IAA Europe, Berlin, Germany, October 2011: Pavol Kral, Slovakia, was elected President of IAA Europe. Andrea Kozarova, Slovakia, started cooperation with IAA Europe as a Secretary. Office IAA Europe continues its work at Bratislava (since 2010).

- Movement of artists for rescue of Meulensteen Art Museum Danubiana, December 2011 – February 2012: this movement of artists, led by President of SUVA Pavol Kral, for the rescue of exceptional museum ended in success: not only prevent the closure of the museum, but its extension has been approved.

... and again protest meeting of artists at the Gallery of Slovak Union of Visual Arts ...

- The World Art Day – April 15th, 2012: similar event, organized by the Slovak Union of Visual Arts on Leonardo da Vinci's birthday. This event was organized within the 2011 initiative of International Association of Art which declared da Vinci's birthday a World Art Day. The action caught the attention of the media, we have seen many responses. Photo report from event here:

- Council for Arts, the counselling body of the Minister of Culture, was established in February 2011: The SCCD and SUVA were represented by its President. One of the most important tasks of this Council was preparation of analytical and conceptual report called "The strategy of cultural development in Slovakia in 2012 – 2016." Some ideas and theses from this material were implemented into the Manifesto of the new Slovak government. Representatives of the Council meet with the new Minister of Culture and some outcomes of the meetings have direct impact on relevant laws and regulations. Thus, the establishment of inter-ministerial committee was recommended – a body that would focus on solving issues of artists, authors and culture in general.

- We collaborated in preparation of the Annual Report of Slovak Republic on implementation of the UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions

which was completed at the beginning of 2012. The official version was signed by State secretary of Ministry of Culture and by Pavol Kral, President SUVA and SCCD.

- Draft agreement between the SCCD and the Section for international cooperation of the Ministry of Culture was worked out by the SCCD Board - based on the negotiations with the General Director of the section. The intention is to develop long-term and systematic cooperation between the Ministry and the SCCD.

- Prior to the parliamentary elections the Slovak Pen Club, the SCCD and other associations initiated discussions with Slovak political parties. The goal was to draw attention to persisting problems of culture sector in Slovakia and to possible solutions as well. After the discussions, the SCCD held a press conference to inform media about how were the most burning culture issues reflected in programs of individual political parties.

- In order to increase efficiency in sharing information with its members as well as with public, the Board of SCCD approved launching of the SCCD web page www.skkd.sk.

- In August 2012, based on the initiative of the Minister of Culture, a representative of the SCCD was also nominated to the Governmental council for non-profit organizations.

- According to the already approved statutes, a President of the SCCD became (November 2012) a member of the newly established Governmental Council for Culture. To solve specific problems, working groups were created and closely cooperated with this Council. Based on the agreement of the SCCD Board members and the Minister of Culture, one of these working groups focused on the topic that we considered the most important – the statute of an artist. The group closely cooperated with the Head of the Office of the Ministry of Culture since June 2012.

- The SCCD delegated members of its Board to negotiate with representatives of the Ministry of Culture and discuss implementation of the Government Manifesto and other issues of artists, authors and culture sector in general. The issues include (along with the already mentioned “status of the artist”):

- ongoing changes in tax and social insurance laws
- Copyright Act issues
- legal inclusion of artworks in new public constructions (Act on Construction)
- legal changes that would recognize purchasing artworks as tax deductible costs
- financing of culture
- laws related to sponsorship, etc.

- Increasing international collaboration: The SCCD approved closer cooperation with the European Council of Artists (ECA). The official application to ECA was submitted in August 2012 – after previous informal contacts with its members (Pavol Kral took part at Conference and GA of ECA at Madrid, Spain, November 2011).

- Following the request of the IFCCD, the SCCD Board agreed to organize the IFCCD Congress and the ECCD conference in Bratislava in autumn 2012. These events were successfully held in the Gallery of Slovak Union of Visual Arts on Sept 20 - 23, 2012.

- Pavol Kral took part at Conference and GA of ECA at Vilnius, Lithuania, November 2012

- We continued in organizing the exhibitions of visual art at national (about 25-30 / year) and also international level (exchange of exhibitions – common project with NC of Latvia and NC of Lithuania, exchange with Czech republic art association, exhibition from Austria, Russia, Croatia, Slovenia, etc).

F/ Review of our activities – SVU Yearbook: http://preview.triad.sk/svu/Rocenka_SVU_2014-15.pdf

G/ World Art Day – 3rd year, April 12, whole day event at gallery, high school of arts, and theatre

2015

1/ Legal and social position of the artists, situation in culture, co-operation with the Ministry of Culture preparing the legislation – actual results where we actively participated:

a/ **The Amendment of the Author Act**: the new Author Act was intensively being prepared for some 1.5 year. It was [approved by the Parliament on July 1, 2015 and signed by the President on July 24, 2015](#).

b/ **The amendment of the Construction Act** was [approved by the Government on 27 July 2015](#) - <http://www.culture.gov.sk/aktuality-36.html?id=524>; it solves also the protection of artistic works in the buildings during additional works or reconstructions; it should be valid from the beginning of July 2016

c/ **Status of the Artist** – positive result of the negotiations for the first time after 25 years;

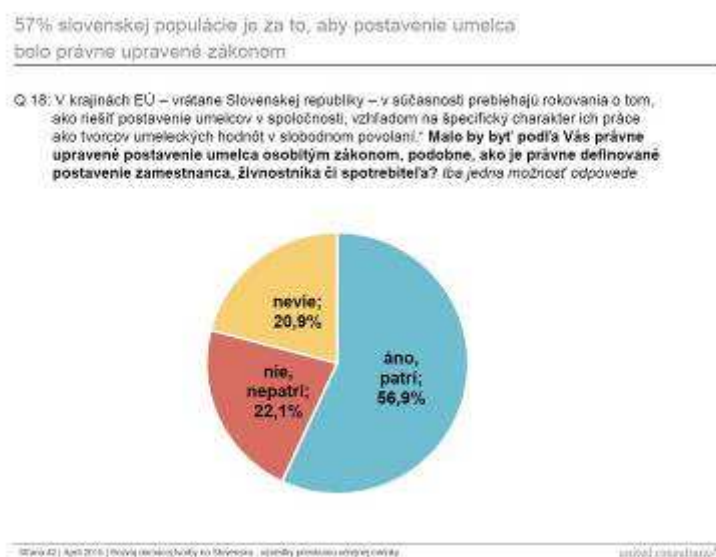

- April 2015 - [we have reached the consensus between the representatives of artists and the Ministry of Culture](#).

- June 2015 - [completed the consultation process to the definitive form of the legislative act](#)

- August 11, 2015 - [proposal discussed at the Government Legislative Council](#)

- August 26, 2015 - [Status of the Artist approved by the Government](#); it has a chance to pass in autumn 2015 to the Parliament and if approved we could solve the following steps. There is a hope that the Act could be valid from the beginning of January 2016. All principles we have promoted, as optionality, expertise, verifiable results and education were included, the result is reasonable and if it works, we shall have legislatively defined professional artists. Then we can start solving other concrete steps.

Interesting is the shift of public attitudes. SOZA agency prepared (in cooperation with us) the public opinion poll where they asked if the position of artists should be defined in the legislation as specific and 56.9% of respondents answered yes (just 22.1% against, 20.9% did not know to answer)

Positive reactions to the publication Status of the Artist from Australia; they have asked P. Král to write an article and it was published in their monthly magazine; in Australia they deal with similar problems, their executive director expressed the will to come to Plzen and participate in the conference.

d/ **Fund for support of arts**: increase of the budget with 45% in the year 2016 in comparison to the budget of 2015.

e/ **The Government has approved a higher proportion of the Slovak music in the media**

f/ **Assigination of 2% for individuals and legal subjects – support of memorandum**: 2% from the taxes of individuals and legal subjects for NGOs we supposed to be decreased to 0.5%. Thanks to long time effort we managed to prepare the memorandum in which the Ministry of Finance committed to preserve the present mechanism.
